# The Handy Bracket For Auxiliary Outboards

Maine Ingenuity  
At Its Best

This bracket re-invents the word

**“Handy”**

Dealers Welcomed

The Handy Bracket is manufactured exclusively by Handy Boat in Falmouth for auxiliary outboards.

Nowhere can you find a better looking, simpler solution for your outboard mounting problem.

Forget the dangerous spring loaded brackets or the shock absorber brackets that can cost over twice as much.

Sheer transom angles, which make the “U” brackets impossible, are a thing of the past.

Using the Handy Bracket makes it very easy to remove your outboard for sailing performance as well as removing the bracket itself so you have no unsightly hanging hardware to interfere with classic lines.

Just ask anyone who uses the Handy Bracket..... “It’s the best thing to come along since oars.”

Forty-five years of proven dependability!
