

MOORING SERVICE

FALL 2011
&
SPRING 2012

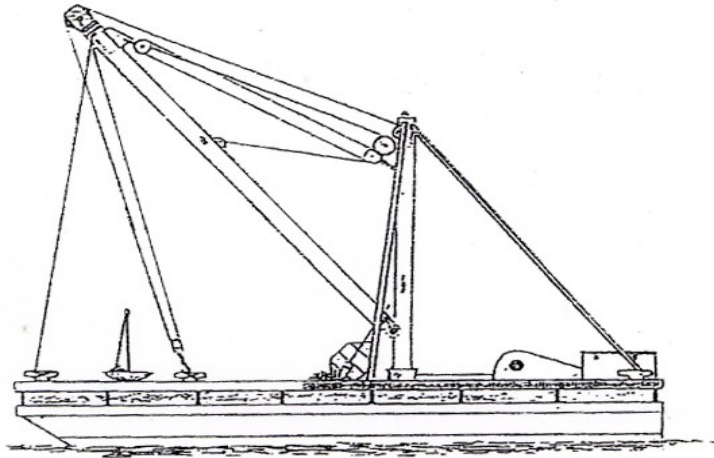

Handy Boat should be servicing your mooring! Your mooring gear is protecting your investment and should be looked at by experienced people. We have been selling and servicing moorings in the Falmouth mooring anchorage since 1934. Exclusively servicing the Falmouth anchorage we are available all season long at a moments notice. With our **automatic service** our crew will winterize your mooring, store and inspect your buoy, repaint your name and permit number and reinstall your buoy in the spring. If the blue stripe needs to be repainted or a shackle needs to be replaced we will do so for a small additional fee. Every two years your tackle will need to be inspected (as required by the Town of Falmouth). Just sign the enclosed agreement and the rest is up to the professionals at HBS.

If you're recently a Diver Down mooring customer, please consider Handy Boat to service all your mooring needs.

Annual fall and spring service \$140.00

Annual fall and spring service w/ an inspection \$175.00

(We suggest that you remove your pick up buoy when leaving the mooring for the season)

During the inspection, we haul your mooring out of the water and inspect every piece of your ground tackle before re-installing it in your permitted location. Some larger moorings require a diver to inspect them as they may be too large to haul up. There is an additional charge for this service.

Please complete the enclosed form for **automatic service**, or renew on an annual basis if you prefer and return it with your payment today. Our experienced mooring service staff is standing by to take care of your mooring needs!
